

# HUMIDITY CONTROLLER

## Advantages of our product:

- ❖ We will provide wireless temperature & humidity sensor
- ❖ Multi segment LED display unit (Dual side display unit also possible depends on customer requirement)
- ❖ Spray pump motor will be control through this display unit
- ❖ Set limit for low and high humidity possible
- ❖ Operator view lamp to show the pump status

# WIRELESS SENSOR

1. Wireless temperature & humidity sensor (Only 220 v ac supply required for the adaptor)
2. Calibration of sensor possible

# WIRELESS DISPLAY UNIT

## WIRELESS DISPLAY UNIT

- ❖ Toggle values of temp & humidity
- ❖ Low & High humidity values can be assigned, based on that spray pump motor will get on/off
- ❖ This control unit helps to maintain room humidity as well as helps to save pump motor power.
- ❖ Lamp will show the active status of pump motor
- ❖ Screen brightness can be adjusted
- ❖ We can provide dual side display unit if customer need

**THANK YOU**
